5228 14<sup>th</sup> St Lubbock, TX 79416 | 915-474-7482 | mleesersmith@gmail.com | www.michaelleeser-smith.com

Results-driven professional, skilled in developing and deploying projects utilizing cutting-edge technologies including React, C#/.NET, JavaScript, and TypeScript. Proven ability to lead independent projects from concept to execution, while also excelling in collaborative team environments. Advanced proficiency in Python, JavaScript, and MERN stack, complemented by intermediate skills in C#/.NET, SQL, and cloud services. Eager to leverage technical expertise and leadership skills to drive impactful projects and contribute to organizational success.

## Education

Bachelor of Science in Computer Science with a minor in Mathematics  
**Texas Tech University**, Graduated December 2023  
Full Stack Coding Bootcamp  
**UT Austin**, Graduated September 2021

## Experience and Projects

**Sr. Applications Analyst**  
**City of Lubbock**, January 2024-Current  
Responsibilities:

- Developed and deployed 3 projects since my tenure, utilizing technologies such as React, C#/.NET, JavaScript, and TypeScript.
- Independently spearheaded 2 projects from ideation to implementation, demonstrating proficiency in project management and technical expertise.
- Collaborated with a cross-functional team on 1 project, fostering effective communication and teamwork to achieve project goals.

**Workshop Lead**  
**ACM: Association of Computing Machinery**, January 2019 – December 2023

- Conducted a workshop on the Scrum framework, integrating real-time challenges to enhance learning.
- Managed and guided multiple teams throughout the workshop.
- Collaborated closely with project managers to ensure seamless event execution.

**Software developer**  
**HackDFW**, February 2019

- Engineered a virtual reality banking experience.
- Acquired proficiency in Unity VR software and basic C# in less than 24 hours to develop and integrate the VR experience.
